| Output | Technology used | Delivered by |
|----------------------|---|--------------|
| Smart Maps Assistant | AI: Large Language Model (OpenAI) | Yuseki |
| Smart Maps Bazaar | Distributed Web: InterPlanetary File System | Hidenori |
| UNVT Portable | Single-board PC: Raspberry Pi | Shogo |

- Outputs successful.
- Opportunity to **expand** the group.
- Opportunity to think about the **practice** phase as a pilot project.

2023-08-09 Meetup – pilot project proposal

- Zoom or MS Teams meeting, tba.

09:00/10:45-04:00 New York

15:00/16:45+02:00 Rome

22:00/23:45+09:00 Tokyo

- Concept: Smart Maps aligned with actual use cases.
- Challenges: custom data, opener participation.

| | | |
|---|---|-------------------------------------|
